# THE SATISFACTION IS IN THE

*Meridian Pacific*

*Process*

We believe in building strong foundations, not only for our structures, but also for the relationships we build throughout the project. When you start right...you end right.

FOUNDATIONS

Meridian Pacific Construction Inc. is a full service Construction Management and General Contracting company, servicing the residential, commercial, and institutional sectors of the construction industry.

The founding principle of Meridian Pacific is to deliver construction projects on time and on budget while providing a high level of service and quality at a fair cost to our clients. At Meridian Pacific, we take a diligent and proactive approach to each project, from looking far ahead in time to consistently seeking ways to reduce costs and improve results. And as all our clients agree, with Meridian Pacific satisfaction is not just with the end product – it's with the whole experience.

Success depends on understanding vision. To achieve success, we assist the design team to clearly define and expand on the client's vision in terms of functionality, practicality, budget, and schedule. During the design development stage, we provide the designer with cost information, alternative construction materials, and the most effective construction techniques.

VISION

TEAMWORK

Efficiency is vital. From concept to completion, we ensure that we make the best use of everyone's time and talents. That's why we go the extra mile to develop a solid work plan that outlines everyone's roles and responsibilities. We foster a team-oriented work environment that inspires innovative thinking and consistent high performance.

*organization*  
PROJECT MANAGEMENT

Our management skills are where we excel. We run projects in a proactive, alert and diligent way. We continuously strive to improve every aspect of the job...from reducing costs and duration to researching products and technologies that will enhance the project value.

# EXPERIENCE

*our people*  
RESOURCES

We are committed to quality. That's why we developed a quality control system that helps us monitor each step of construction, from structure to finishes. Our managers and site personnel are skilled problem solvers and detail oriented people who understand and respect the client's objective for quality workmanship.

The key to our success is our people. Our dedicated team brings to the project a broad and diverse range of experience, knowledge, and training. Plus our extensive network of consultants, subcontractors, and suppliers adds further leverage into our pool of talent. This combination assures our clients of competitive prices and unparalleled service. But what makes us noticeably different is our people's attitude. Our managers and site personnel are positive, pleasant, and approachable.

QUALITY

"Thank you for the excellent job that your firm did on our construction project. We especially appreciated that we were given a very detailed estimate of costs; deadlines were met in all cases; and additions to the project were handled promptly, efficiently and cheerfully. Your commitment to service and excellence was evident throughout all stages of our project."  
RON GRAHAM, CEO, QWEST FOODS LIMITED
